

Edmonton Bulletin.

VOL. XV. No. 1. EDMONTON, ALBERTA, THURSDAY, NOVEMBER 3RD, 1892. SEMI-WEEKLY, 8 PAGES

TELEGRAPHIC.

WINNIPEG, November 3.

Lieut. Schwatka, Arctic explorer, suicided at Fort Land.

Premier Abbott and minister Foster met premier Gladstone.

Sir Charles Tupper denies that he will be promoted to the premiership.

The Mercier trial closes to-day. It is believed that he will be released.

A bad railway smash-up has occurred in Yorkshire, England. A dozen killed and many injured.

There was a stormy meeting of the Grand Trunk shareholders. The board was viciously criticized, but the report was adopted.

Selkirk nomination to-day, Daly will be elected by acclamation. He refuses to speak on the school question; that he is a judge on the matter and his mouth is sealed.

There is much excitement over the decision of the British authorities to schedule Canadian cattle, on account of the belief in the existence of pleuro pneumonia in Canada. Twenty-seven bulls, from Pincher Creek, Alberta, were seized and slaughtered at Liverpool on Monday under the supposition that they were infected with pleuro pneumonia.

Dominion government has disallowed the streams ordinance passed by the Northwest assembly, which provided for timber slides and other improvements on floatable streams, and allowed the collection of tolls by the constructor for use by other parties. The reason for disallowance is that all Northwest lands are the property of the Dominion government, and as streams are especially exempt from sale, the assembly was exercising undue power in interfering in the matter. It is understood that the Lands Act will be amended at next session to cover the ground.

LOCAL.

D. McLEOD returned from Calgary on Monday's train.

JAS. McKERNAN is opening a coal seam on his property, South Side.

THE regular council meeting of last night was adjourned until Friday night.

W. FIELDERS has been awarded the contract of improving the grades on Fulton's creek, 14th base line.

A. CAMERON has been awarded the contract of improving the grade on the hill opposite Fraser's mill.

McPHADDEN & BANGS are erecting an addition to their livery stable for office and harness room, 12x18. D. McCarty, builder.

T. DALY and W. Hislop have been awarded the contract of improving the 14th base line between Caverhill's creek and Fulton's creek.

THE sale of government survey outfits is in progress this afternoon. There is a large attendance and good prices are being realized.

THIRTY delegates from Eastern Washington will arrive on to night's train accompanied by Jas. Forest, of Fitzgerald & Lucas' office Calgary.

J. A. McDUGALL's store was moved to its new location, north side of Jasper avenue, on Monday; the work being done very successfully.

W. J. GRAHAM has opened a coal seam under the "Cliff" property East end of town. This makes six drifts being worked in Edmonton this season.

THE lands department year closed on October 31st. The records show 795 homestead entries at the Edmonton land agency during the preceding twelve months.

FITZGERALD & LUCAS sold 3,000 acres of C. P. R. land to prospectors from Washington, on Tuesday. This makes 7,000 acres sold within a week to people from Eastern Washington.

REV. FATHER ANDRE, of the Roman Catholic mission at Calgary, is reported to be dying. Father Andre spent many years of his life at Edmonton, and established the Catholic mission at Duck lake.

W. CLARK of Horse Hill sold a thoroughbred short horn bull six months old to N. S. Cairns of Lacombe station this week for \$65. Mr. Cairns purchased a herd of thirty young cattle at St Albert to put on his ranch at Lacombe.

W. R. BRERETON is in town from Egg lake, south of Victoria. Several new settlers have come to Egg lake this season, including Stephens Brothers, from Clover Bar and J. Batty, from Saddle lake. The survey of the four townships surrounding the lake is in progress by A. O. Wheeler, D.L.S.

THE work of grading up several streets in the South Edmonton town site was commenced on Tuesday. A grade will be made along connecting streets from the railway station to the top of the hill on the trail to the lower ferry. The C. & E. company is finishing the funds. A bridge and grade will also be put on Mill creek opposite Whyte avenue.

THE lands department has issued a splendid sheet map of the Peace Hills district, being the southern subdivision of the Edmonton land district, showing the townships from 41 to 48, ranges 16 to 28. This map is a companion to the map of the Edmonton district proper already issued. These maps show lands surveyed, lands entered for, lands patented and lands held by corporations, and are the greatest possible convenience to land prospectors or to anyone desiring information regarding the district.

W. D. MATHESON brought to town, on Tuesday, several samples of building stone from a large bed or quarry existing on the bank of the White Mud creek, on section 15, township 51, range 25, west of the 4th meridian, about thirteen miles southeast of Edmonton, and about four miles west of Black Mud railway station. The ledge shows about 16 feet thick in the bank of the creek for about 100 feet in length. There is every reason to suppose that it extends very much further, but that is all that appears uncovered with clay. The stone is soft sandstone of a bluish tinge, and is easily quarried. Its value as a building stone has not yet been tested, but there is every prospect that it will fulfil all requirements.

W. MACDONALD brought in a twenty gallon keg of petroleum specimens from the Egg lake find on Tuesday. At a depth of about eight feet through black mould and yellow clay a bed of soft black gum, mixed with sand, is reached. Mr. Macdonald dug about three feet into this bed of gum without finding any change in its nature. Overlying the bed of gum is a casing of hard pan, very difficult to break through. In digging through the clay small pockets of the liquid tar, free from sand, are found, apparently having been pressed upwards from the main bed, through cracks in the ground. Mr. Macdonald dug in several places and found the tar below the surface in every case. The specimens brought in are intended to form part of the Northwest exhibit at the World's fair.

NEW ADVERTISEMENTS.

CREDIT NOTICE. Frank H. Peters, contractor, has made an assignment for the benefit of his creditors to Colin F. Strang. Creditors are requested to send claims, and debtors to pay their accounts, to Beck & McNamara, Solicitors for the estate.

NOTICE. Tenders will be received up to December 1st, 1892 for the construction of a bridge over Battle River, between River Lots 15 and 39, Township 46, Range 21, West 4. Plans and specifications can be seen at the office of F. E. WILKINS, Red Deer, Red Deer, November 2nd, 1892.

SURVEYS.

The several survey parties which have been working in the Edmonton district during the past season, under the direction of J. S. Dennis, chief inspector of surveys, have all come in and most of them go out on to-morrow's train. Employed on re-staking were Messrs. C. F. Miles, Jas. Gibbons, A. St. Cyr and E. W. Hubbell. On new subdivision work, Messrs. H. H. Robertson, A. O. Wheeler, J. D. Fitzpatrick, J. McLatchie and G. Gosselin. Further south in the Red District Messrs. Michael Deane and P. T. C. Dumais were working. The townships re-marked were: 55 and 56, in range 18; 54, 55 and 56, in range 19; 55 and 56, in range 20, 54 and 55, in range 21, all lying around the northern point of the Beaver Hills, and south of the Saskatchewan river; 53, 54, 55 and 56, in range 22, extending south and north of the river at Fort Saskatchewan; 52, 55 and 56, in range 23, the first in the Beaver Hills, east of Edmonton, and the two latter about the Athabasca crossing of the Sturgeon; 49, 55 and 56, range 24, the former east of Leduc station, and the two latter chiefly north of the Sturgeon river, east of St. Albert; 50, 55, 56 and 57, in range 25; and 50, 55, 56 and 57, in range 26, all north of St. Albert, near Egg lake. The townships newly subdivided are: 47 in ranges 16 to 23, and 48 in ranges 22 and 23, being in the vicinity of Hay and Bittern lakes, at the south end of the Beaver Hills and eastward; 50 and 51 in range 19, at the southwest extremity of Beaver lake; 56 and 57 in ranges 15 and 16, surrounding Egg lake, south of Victoria settlement; 51, range 23, six miles southeast of Edmonton, on the western side of the Beaver Hills. The re-marked surveys have iron bars and mounds at the section corners, the section, township and range being marked on the southwest side of the bar. While the surveys that have been made this season have been of the very greatest assistance to settlement—indeed without them settlement would have been blocked—the settlers have followed so close on the heels of the surveyors, that now, at the close of the season, the surveys are little, if any further in advance of settlement than they were last spring. At the same time the prospects of a rush next season are far ahead of those of last season. Unless something altogether unlooked for happens it will be necessary for a much larger force of surveyors to be started in the field next spring than last, and they will have to start much earlier. There is still a few townships of good country unsurveyed, northwest, west and southwest of town, and these should be attended to at the earliest possible date. But the chief necessity is for the subdivision of the immense district lying east of Beaver lake for about sixty miles between the Saskatchewan and Battle rivers. This is a tract of country unexcelled in suitability for settlement, of uniformly good quality, all available and of sufficient area to ensure that all the people who may choose to come for a few years, at least, can be accommodated and suited, if it is possible to suit them. This matter should be pressed strongly upon the attention of the government by everyone interested in the continued progress of this part of the Northwest. We all know what injury the lack of adequate surveys did last spring, and the country cannot afford to have the experiment repeated. Then there was the excuse of unforeseen circumstances. Now the necessity is as clearly apparent as that there will be another summer.

and O on hip, with one white hind foot, marked
1099 on hoof. Anyone returning the horse to me will
suitably rewarded. T. G. PEARCE, Section 34, Range 23,
Township 53.

GENERAL NEWS.

Coal was shipped from Estaven to Winnipeg on October 28th.

Rev. A. Anson, ex-bishop of Assiniboia, is on his way to England.

The Canadian "Soo" canal is to be completed by the end of next year.

N. F. Davin, of Regina, and J. R. Costigan, of Calgary have been made Q. C's.

The Free Press of October 28 mentions the arrival of Rev. Father Leduc in Winnipeg.

Free Press: Forty cars of cattle passed through the city yesterday for the east for shipment to the old country. Thirty cars were from the Calgary district and the balance from the M. & N. W. railway.

Thomas Neil Cream has confessed that from 1876 to 1881, when he was arrested in Chicago, he made a practice of poisoning dissolute girls in Canada. His numerous victims, he says, were buried without suspicion on the part of anybody that they had died unnatural deaths.

Free Press: "The minister of the interior has authorized the erection of a wind mill pump at the Deloraine artesian well. It is expected that when the sand has been removed from the pipe by the pumping that a steady flow of water will be secured." The new minister is not long in getting down to work.

A nun, sister Mary Anne, disappeared suddenly from the convent at Prince Albert on Sunday, October 19th. She was found on Wednesday morning, near the Mennonite settlement, near Duck lake, having walked fifty miles and slept out of doors. She is supposed to be insane. She was taken back to Prince Albert.

It is reported on good authority that Mr. Macdowall, M. P. for Saskatchewan, is to be our next lieutenant governor. His appointment would be in harmony with the Standard's contention that a resident should be appointed. It would also be highly acceptable to the people of the Territories, and we sincerely hope the rumor is a well founded one.—Regina Standard.

At a meeting of the Northwest board of education, held in Regina last week, it was resolved to recommend that normal sessions should be held during the coming winter months, not only in Eastern and Western Assiniboia, but also in Alberta and Saskatchewan, and that the attendance of teachers holding non-professional certificates should be made compulsory at such normal session.

A. R. Booth, the well-known lumberman of Ottawa, has purchased the projected Parry Sound railroad, which will be connected with the Canada, Atlantic & Ottawa railroad and extended to Georgian Bay, where it will meet the steamers of Lakes Michigan, Superior and Huron in a direct line from the west to the east between Montreal and the "Soo." This will lessen the water route from Chicago and the western states and the Atlantic by 450 miles, and as this overland route from Parry Sound to Montreal is 150 miles less than from Buffalo to New York, there will be a total saving of 600 miles.

TO FARMERS.

THE NORTH-WEST FIRE INSURANCE COMPANY, Besides ordinary risks, insures against Prairie Fires, Lightning and Windstorms; grants permits to use metal chimneys in dwellings, and steam threshers on the premises; insures Stock, Produce and Grain in Stack; also takes notes for premiums when necessary. ISAAC COWIE, Agent, Edmonton.

Standing advertisements—50 cts a line for 3 months.

FRANK OLIVER, — PROPRIETOR.

EDMONTON BULLETIN, NOVEMBER 3, 1892

VOL. XV.

With this issue the BULLETIN enters upon the thirteenth year of its labors in furnishing news of the outer world to the people of Edmonton and district, and furnishing to outsiders news and information regarding Edmonton. On this occasion more than on any previous one it feels that congratulations are in order all around. At last this district, which thirteen years ago was a thousand miles from anywhere, and almost as inaccessible as Central Asia, has come to be in everyone's mouth over half a continent, and the flow of people necessary to develop the abundant latent wealth existing here has begun and reached important proportions. It is not too much to say that this place, which thirteen years ago, was practically unknown is to-day attracting more attention as a field for settlement, than any other in North America. This means the realization of the hopes indulged in by the pioneers of long ago, and it also means prosperity for the new comers who, by casting their lot in a good country, have taken the first step to fortune. To one realizing the advantages which this country offers, and seeing how these are now universally appreciated, it seems impossible that there could have been a time when they were utterly ignored and denied—that these advantages must have forced themselves upon the popular attention in any case. But we who have lived here for many years know only too well the difficulty and at times the apparent impossibility of convincing the public at large as to the plain facts. There was a vast mass of selfish interest as well as unreasoning prejudice to be overcome before people could be brought to believe that here in the very far north and west, beyond the arid plains and in the latitude of Hudson's Bay, was a region of abundant rainfall, luxuriant growth and climate far less severe than in Manitoba, 300 miles further south. In bringing the facts of case before the outside public in such manner as to secure interest, and to overcome prejudice the BULLETIN claims to have done its full share. By presenting the live news of the district in a compact, readable shape, people were informed as to what was going on from time to time, and believed what they read, as they would not had the news not been carefully collected and arranged, or if it had been found out not to have been reliable. It has sometimes been urged against the BULLETIN's efforts to attract attention to the district that it did not sufficiently suppress on the one hand and exaggerate on the other. The result has shown that the policy followed has been the best. The merits of the country are enough to recommend it without misrepresentation of any kind, which, when used, always reacts upon those using it. It has also sometimes been objected to the BULLETIN that its smallness was against it, with outsiders. The contrary has been the case. For while a person not directly interested in this place would never take time to wade through the plate matter and long whiskered stories and jokes usually found in a blanket sheet in order to reach the little handful of news contained, often mixed with an-

CHAVE & CORRIVEAU,

HARDWARE MERCHANTS,

Now on hand
One carload of Gurney's famous "Stoves" to be sold at moderate prices.

WORLD'S COLUMBIAN EXPOSITION.

Arrangements have been made by the Northwest Government with Mr. Angus McKay, manager of the Experimental Farm, Indian Head, Assiniboia, who has been commissioned by the Dominion Government to act in that behalf, by which all persons and Societies in the Territories who are willing to aid in contributing to the Northwest Exhibit at Chicago can do so by forwarding their Exhibits to him at Indian Head.
After arrival at Indian Head, the Exhibits will be re-arranged according to the requirements of the World's Fair Commissioners and forwarded to Chicago, where they will be taken charge of by the Canadian Commissioners.
All Exhibits will be insured by Government and returned after the Exposition close to the Exhibitors free of cost. Freight on all Exhibits will be paid by Government.
Intending Exhibitors may obtain all necessary information connected with the forwarding etc., of Exhibits by corresponding with the Executive Committee, Government Office, Regina.
Exhibits are solicited of Grains, Roots, Grasses, Dairy Products, Minerals, Coals, Wool, Furs, Building Stone, Stuffed Birds, Animals, etc., Fish, Insects, Natural and Indian Curiosities, Photographs, Etc., Etc. Whatever in fact will illustrate the resources of history of the country.
Residents of the country are earnestly requested to assist by every means in their power in making the Northwest Exhibit a success by contributing, where they can, personally and in such other ways as may occur to them.
With the exception of Dairy Products, Exhibits from now on should be forwarded as soon as possible and full information should accompany each article exhibited.
Address
"The Executive Committee, Regina, Assiniboia."
By order
R. B. GORDON,
Clerk Executive Committee

SHERIFF'S SALE.

NORTHWEST TERRITORIES)

announcements regarding so-and-so's pills or such and such soap, in the **BULLETIN** he found the news first and could read it while he was searching in most country papers. And it is news and information that interests people, not bulk of paper. At the same time the facility with which the small sheet could be handled, and the saving in paper, made it possible to spend more money in collecting news and to get it out more promptly than could have been possible otherwise. The semi-weekly issue which was commenced on the first of May last has we believe met the public requirements and taste very fully during the past season. Preparations are now being made to change the shape of the semi-weekly to four large, instead of eight small pages. To do this involves the addition of very expensive machinery to the plant of the office. But when this addition is made it will be possible to make any further increase in size or number of issues per week at pleasure. Patrons of the **BULLETIN** may depend that as it has been fully up to the requirements of the district in the past, it will continue to be so in the future and that it will only be too glad to meet any possible necessity that may arise from the increase of settlement or expansion of the trade of the immense country of which the town of Edmonton is the business centre.

FROM FORT CHIPEWYAN.

R. Secord arrived from Fort Chipewyan, lake Athabasca, on Tuesday last, bringing a considerable amount of fur. He left Chipewyan on October 3rd, tracking up the Athabasca to the landing with a boat and crew of four men. The river was at a good stage for tracking and the weather was favorable, as a rule, but a fall of about two inches of snow occurred on October 15th when near Fort McMurray. Gardens were good at Fort Chipewyan during the past season and game was plentiful. The Roman Catholic mission there took down a small steam engine this season to be used in a steamer which they will build. The engine is now being used to saw lumber with which to build the steamer. Although the weather was fine when Mr. Secord left Chipewyan, winter sets in there much earlier than at Edmonton. Last winter the lakes were frozen on November 1st. S. Villeneuve, who went down the Athabasca about the same time as Mr. Secord, is expected in shortly. He took goods down for S. D. Mulkins, who is trading at Fort Resolution, on Great Slave Lake. He met Mr. Mulkins at Fort Smith, half way between Chipewyan and Resolution, and exchanged his goods for the fur which the latter had traded, and got back to Chipewyan, but was unable to bring his fur through from that point owing to the lateness of the season. Mr. Secord mentions the noted petroleum deposits of the Athabasca, which extend for about 50 miles along the river between Forts Chipewyan and McMurray, the crude oil exuding from the river bank all along that distance. He also mentions the natural gas springs at Buffalo, about twenty below the Grand rapids of the Athabasca. When he went down the river the gas was not burning, having been quenched by high water. He lit it and it was still burning when he returned, over a month later.

A BRANCH land office is being asked for Wetaskawin station, 40 miles south of Edmonton. This is the depot of a magnificent tract of country extending far to the eastward, which has attracted more settlement this season than any other point on the C. & E. line, except Edmonton. At present entries are made at Deer. An office at Wetaskawin would be very great convenience and would materially hasten settlement.

This large party of Washington delegates, who arrived on Monday night, have gone to the river lake and will travel clear round the lake before returning. They will be back Friday night.

Carpets, Curtains

HOUSE AND FURNISHINGS.

GENERAL NEWS.

A meeting of conservatives was held at Estevan, on October 27th, to select delegates to a nominating convention for Eastern Assiniboia to be held at Grenfell shortly. E. P. Leacock was chairman. The choice of the meeting was J. R. Neff, M.L.A., of Moosomin. The Moosomin Courier says that Messrs. B. P. Richardson, of Grenfell, and J. R. Neff, of Moosomin, will likely offer as candidates before the convention.

There has been considerable newspaper talk recently about the Canada Western railway to run by way of the Jasper pass, the money being raised in Chicago. On this subject the Chicago Herald says: "The rumor that \$5,000,000 has been raised in Chicago for building a new Canadian transcontinental line from Victoria is founded mainly or entirely in the wishes of its promoters. The money has not been raised and no one but the promoters could be found who believed it would be."

The Free Press of a recent issue has a synopsis of an interview with a returned visitor to Edmonton, in which the following passage occurs: "A survey has also been made of a spur line running down the valley of Mill creek, on the south side, to the flat just opposite the old town, with a view to a prospective crossing of the river and entry into Edmonton. To connect the two places in this manner would require about five miles of heavy grading, an iron bridge across the Saskatchewan, right of way and terminal facilities on the north side, the cost of which is estimated roundly at from three-quarters to one million dollars. The citizens of Edmonton are disposed to give a liberal bonus to secure the terminus and will, no doubt, get it in the near future." It would be interesting to know upon whose report the above estimate of cost was based. The Saskatchewan at Edmonton is no wider than the South Branch at Saskatoon, the valley is no deeper nor is the necessary approach any longer or more difficult. The crossing at Saskatoon did not cost anything like the money mentioned nor would that at Edmonton. A practical man, after examining the ground, estimates the cost of a traffic bridge at \$50,000 to \$60,000. Of course there is quite a difference between a traffic bridge and a railroad bridge, but scarcely as much as between \$60,000 and \$750,000. As for the approach to the river it can be made in three or at most four miles, and the work is of no heavier nature than at the crossing of the Red Deer. These outrageous estimates of the difficulty of reaching Edmonton with a railway, are evidently circulated with the intention of injuring the place. If they were correct they might be justified, but when they are as false as they are malicious, a reputable paper such as the Free Press should hesitate about giving currency to them.

G. R. PARKIN, of the imperial federation league, arrived on Monday's train. Mr. Parkin is making a tour of the colonies of Britain on behalf of the league, with a view of gauging public feeling on the question.

ILL news travels fast now as always. The statement of the Calgary Herald that there was four feet of snow at Edmonton, on October 15th, was widely copied, appearing in almost every exchange received at this office. Last mail Rev. D. G. McQueen received a letter from Revelstoke, B. C., asking as to the truth of the report, which was likely to affect the movement of people from Eastern Washington to Edmonton. Revelstoke is the point at which the immigrants take the C. P. R. Mr. McQueen replied at once.

FREE PRESS: Mr. Thos. Willows, of Sand Creek, Nebraska, arrived in the city yesterday and leaves for the Edmonton district to-day. He has a son already located there and together they will operate a thoroughbred cattle ranch. His herd of over a hundred short-horns will follow him in a few days. He has been a resident of Nebraska for over fifteen years, and after paying a visit to the Northwest last spring was so much taken up with the country that he decided to settle up his affairs in Nebraska and return to the Northwest to take up his permanent residence.
